Education

Amrit Science Campus

Bsc. CSIT

2023 - 2026 (Expected)

Lainchaur, Kathmandu

Technical Skills

Languages: Javascript, Typescript, HTML/CSS, SQL

Developer Tools: VS Code, Git

Frameworks: Nextjs, React, ExpressJS, trpc

Libraries: ShadcnUI, React Hook Form, TailwindCSS, Tanstack Libraries, SWR, Drizzle ORM

Others: Docker, Linux, Selenium

Experience

OTC Nepal (Partnered with Sun Securities)

Oct 2025 – Present

Full Stack Developer

Kathmandu, Nepal

- Developing the MVP of a full-stack promoter trading platform for **OTC Nepal** in partnership with **Sun Securities**, a licensed broker company.
- Building a backend using **Elysia** and **Orpc** with type-safe APIs, **Drizzle ORM** and **PostgreSQL**, integrating **Redis** for caching and sessions, and **MinIO** for secure object storage.
- System includes admin-driven **KYC verification system** with **role-based access control** and **multi-tenant architecture**.

Amadico Nepal

Jun 2024 – July 2025

Frontend Developer

Samakhushi, Kathmandu

- Built and maintained key modules of a hotel management system using **Next.js** and **ShadCN UI**, covering POS, Inventory, Billing, Dashboard, Room Reservations, and Reports.
- Integrated ShadCN's auto chart components to deliver dynamic data visualizations and analytics dashboards.
- Implemented invoice generation (**jsPDF**), optimized form workflows (**react-hook-form + zod**), and enhanced UX for toast message (**sonner**) and date handling (**date-fns**).
- Enabled effortless document sharing through drag-and-drop file uploads using **react-dropzone**.
- Optimized data fetching and caching across modules using **React Query** to ensure smooth and responsive UI.
- Designed the application interface using free design resources available online, iteratively improving it based on continuous client feedback.
- Adopted **Origin UI** to overcome component limitations of ShadCN UI, enhancing design flexibility and consistency.
- Engineered a full migration from an unstable Flutter-based system for inventory and pos modules to maintainable Next.js architecture, significantly enhancing application performance, reliability, and developer productivity.
- Mentored two interns new to the tech industry, accelerating their onboarding and skill development.

Upwork Freelance

Sep 2025 – Sept End

Full Stack Developer

Remote

- Contributed to a **MERN stack** project by fixing existing modules and resolving API bugs related to **Stripe subscription** integration.
- Deployed applications on a **Hostinger VPS** using **Docker** and **Nginx**, ensuring smooth deployment and optimized server performance.
- Collaborated with clients to enhance existing systems, improve functionality, and maintain high application reliability.
- Collaborated on a **MERN stack risk management system**, improving company search functionality and enhancing public risk display features.

Chhangmi Education Consultancy

Jun 2023 – Apr 2024

Software Developer

Kathmandu, Nepal

- Developed and deployed a scalable, high-performance **Next.js** PWA frontend to support online tests, payments (QR code image), and user interactions.
- Developed a user-facing application for seamless test-taking, mock interview platform, enhancing user experience and operational efficiency.

- * Continuously enhanced the platform over a year by delivering new features, refining user experience, and adapting to evolving client needs through close collaboration and feedback-driven development.
- * Upgraded the application migrating backend from **PHP** to **tRPC** for type-safe and streamlined API calls leveraging **Next.js** server side rendering.

Suga360

Frontend Developer

Jun 2024 - Jun 2025

Henderson, NV, USA

- * Designed a responsive and accessible UI using **RizzUI**, with form handling via **React Hook Form** and **Zod**, interactive charts using **Recharts**, and carousel functionality via **Embla**.
- * Developed scalable frontend architecture with reusable components using **Next.js**, **React**, and **TailwindCSS**, and managed data fetching and state using **SWR** and **Zustand**.
- * Deployed and served the frontend application using **Nginx** with **Certbot** for HTTPS, ensuring secure and optimized delivery.
- * Integrated 52mm thermal invoice printing by converting UI components to PDF using **jsPDF** and **Canvas-to-PNG** techniques for accurate print rendering.

Projects

Personal Portfolio | *Next.js, Tailwind CSS, Velite*

In Development

- * Developed a statically exported personal website using **Next.js** with custom reusable components.
- * Integrated markdown-based blog support powered by **Velite**.
- * Optimized for performance and SEO with static generation, accessibility best practices, and microinteractions.
- * Structured the codebase for scalability—modular architecture, reusable UI components, and future CMS integration.

Leadership / Extracurricular

AWS Cloud Club – Tribhuvan University

Event Organizer (Technical Department)

Nov 2025 – Dec 2025

Kathmandu, Nepal

- * Designed and configured an AWS-based ticketing system and event landing page supporting 600+ attendees without failures.
- * Enabled smooth check-ins for 8-10 volunteers and improved system efficiency through multiple iterations.

Hult Prize

Participant

2024

Amrit Science Campus

- * Worked in a 4-member team to develop and pitch a sustainable business solution to a global issue.
- * Enhanced teamwork, problem-solving, and entrepreneurial thinking skills.

Datathon

Participant

2024

Institute of Crisis Management Studies (ICMS)

- * Collaborated on innovative tech ideas under time constraints during a campus Datathon.
- * Gained mentorship from senior developers; received participation certificate and Programiz Premium.
